

## Industrial Equipment and Machinery Division

### Kasunick Manufacturing Inc. Manufacturing the highest quality equipment used by industry

Tundish Cars

### Diversity

Manufacturing, assembling and testing complex machinery and machine components to diverse industries including:

- Continuous casting industry
- Steelmaking industry
- Material handling industry
- Plastics industry
- Chemicals industry

Designed and built according to engineer's specifications.

Blast Furnace Tap Hole Drill

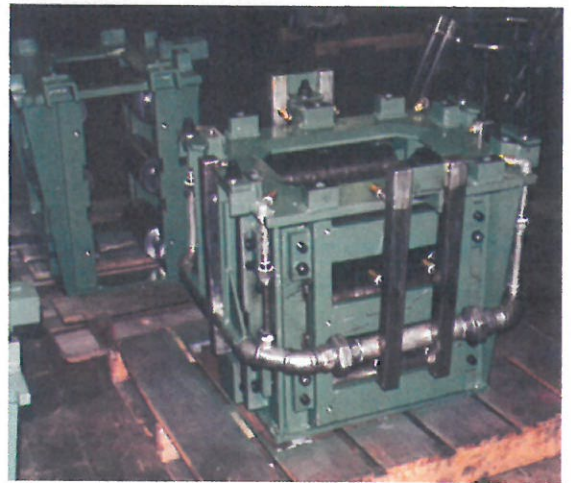

### Experience

Our staff has over 40 years combined experience in manufacturing industrial machines and equipment.

This experience, combined with state of the art technology allows the Industrial Equipment and Machinery Division to utilize the best equipment required for precise duplication of engineering specifications and size of the project. Experience counts in obtaining quality results from specialized equipment including:

- State of the art welding technology
- C.N.C. lathes and milling machines to guarantee close tolerances and proper fit
- Mills up to 25' of travel
- Lathes up to 20' of travel

The division has experience dealing with all metals, including aluminum, carbon steel, stainless steel and high-temperature alloy steel.

Continuous Caster Foot Roll Assemblies

**Kasunick Manufacturing Inc. Combining experience with the latest equipment to provide the best quality for you**

Adjustable Venturi for the Steelmaking Industry

### Quality

While our specialized proprietary welding equipment guarantees accuracy, the human touch provides that further assurance specifications are met. The Industrial Equipment and Machinery Division provides,

- 100% inspection of all phases of production
- Rigorous testing of all components and machines to guarantee they will perform as specified
- All inspections and tests are documented for unmatched traceability

Before products are shipped, they must meet K.W.C.'s rigorous quality assurance program.

All welding meets AWS and ASME codes and specifications.

### Service

Kasunick Welding Company Industrial Equipment and Machinery Division services include,

- Engineering and design services
- Complete machine shop services
- Milling machines with travels up to 25' long
- Lathes with travels up to 20' long

Kasunick Welding Co. Industrial Equipment Division trucks are scheduled anywhere in the United States to assure quick turnovers and on-time deliveries.
